Select your vehicle to access the Factory Service Manuals If you plan to do your own work on your Datsun, whether it be routine maintenance or more indepth projects, you'll want to have access to a Factory Service Manual FSM. These manuals are significantly better, and more accurate, than a Haynes or Chiltons manual, since the information is developed by the manufacturer to be used by Nissantrained technicians. Even if you're not an advanced doityourself owner, we're here to help. We provide our members access to the same factorypublished FSM for free. This way, you'll have it at your fingertips in the garage for easy and quick reference. While you're completing your project, take pictures as you go, and write up the process. You'll be contributing to the community, helping out your fellow enthusiasts, and we might even send you some free goodies for your efforts! While this is rare, we certainly like to know about it. Keep in mind, most of the early Datsun manuals were translated, often poorly, and are sometimes more comedic than helpful. Well, you get what you pay for. In all seriousness, maintaining the current Nissan and Infiniti manuals is a challenge in itself. We've got a broader reach than you, so we're putting these out here for people to access and use. We might respond, or we might not. Most likely, we'll just make fun of you for being weird.
